How it works

We provide

We deliver free empty boxes to your doorstep as per your convenience. For approximation of required space, our service executive will understand your needs and offer complete guidance to deliver the right solutions. Once required space is estimated, we will give you a customised proposal suited to your needs and budget.

We pick up

Our friendly service team will visit your location to help you pack, if required, and load & transport your goods. Individual items are barcoded for easy retrieval later. You also have the option of inventory management, wherein we can accept deliveries or send on your behalf.

We store

Your goods are safely stored in our state of the art warehouses. Through our online portal you can easily track your bar-coded inventory. Pictures are also posted on your account as a reminder of what you have stored with us.

We return

You can call us or place a return request on the online portal. Our team will deliver your goods back to your doorstep at the scheduled date/time.
